

# Do you see things in a **different** light?

At FLIR Systems, we do. We're the world's largest producer of commercial thermal imaging systems and we are growing at a fast pace. Our ability to see in total darkness and through smoke, fog and other obscurants provides a unique capability to clients around the world.

FLIR Systems was established in 1978 in the USA to pioneer the development of high performance infrared imaging systems. Today, FLIR Systems is the world leader in the design, manufacturing and marketing of thermal imaging systems for a wide variety of commercial, industrial and government applications. FLIR Systems is a high technological company traded on NASDAQ ("flir") and employs worldwide about 3,500 employees. As the leader in the commercial IR industry, FLIR Systems has pioneered the development of low-cost thermal imaging systems for a wide variety of vertical markets such as :

- Thermal imaging for Predictive Maintenance, Building, Machine Vision, R&D and Firefighting
- Recreational and commercial maritime markets
- Outdoor activities (hunting, wildlife observation, camping)
- Security & Surveillance
- Traffic Applications ('FLIR Intelligent Transportation Systems')

For the fast growing EMEA Headquarters in Meer/Belgium we are today looking for a talented and experienced professional to reinforce the EMEA & APAC Export team in the position of :

## **Global Trade Compliance Analyst** *Export Administrator EMEA & APAC*

### **YOUR MISSION**

After an intensive training & introduction period you will be responsible for export administration, control and licensing and for ensuring compliance with government rules and regulations.
