HALOILA
Machines & Service

H. BÖHL

SIGNODE

The world's leading manufacturers of automatic stretch wrapping machines, **Haloila** (www.haloila.com), **Lachenmeier** (www.lachenmeier.com) and **H. Böhl** (www.boehl-einwickeln.com) provide comprehensive solutions for the automatic wrapping of pallets for all industries in which pallet transport is part of the logistics chain. Since 1976, **Haloila** is developing and manufacturing semi-automatic and fully automatic stretch wrapping machines from its manufacturing head office in Masku, Finland. Since 1969, **Lachenmeier** is developing and manufacturing fully automatic stretch hood machines from its manufacturing head office in Sonderborg, Denmark. Since 1926, **H. Böhl** is developing and manufacturing stretch packaging machines for different products packaging by wrapping. All companies have an excellent reputation for finding innovative packaging solutions for a wide variety of industries. Main customer sectors include the food and beverage, chemicals, building materials and pharmaceutical industries. As part of the diversified and international **Signode Industrial Group** (www.signodegroup.com) the companies offer a complete packaging solution, including high quality wrapping materials and excellent maintenance services. Today **Haloila**, **Lachenmeier** and **H. Böhl** operate an extensive sales organization, service and partner network on five different continents, giving the company a solid position in the international market.

To strengthen the French and European Service and After Sales organization the company has an exciting career opportunity available for 2 (M/F) :

Field Service Technicians - North of France

Nord-Pas-de-Calais - Picardie - Normandie - Champagne-Ardenne - Île-de-France

MISSION

- After an intensive training period (France, Finland and Denmark) you will be responsible for the installation, repairs and maintenance of automated packaging machines in the northern parts of France with occasional interventions in Benelux or elsewhere in Europe.
- You will offer high-quality service to end-customers in a wide range of high-volume industries.
- Collaborating with the Sales, Customer Service, Spare Parts and Production teams you will guarantee and improve customer satisfaction by providing technical assistance and troubleshooting, including e.g. PLC parameter setting and software updates
- On installation and start-up of new machines you will deliver support and training to customers on site.
- You will diagnose breakdowns and technical problems and you will issue reports and quotations for machine-repairs or -replacements.
- You will report directly to the Service Manager North of France.

PROFILE

- For this challenging position we are looking for a talented and versatile professional with a technical degree in Maintenance, Industrial Automation, Mechanical/Electrotechnical Engineering or similar and a relevant experience as after sales, service or maintenance specialist for automated machines in an industrial environment.
- Specific knowledge of e.g. *Siemens S7*, *Allen Bradley*, *Schneider*, *Profibus* is a plus.
- You are a dedicated and responsible person who shows a high degree of autonomy and flexibility.
- You are well organized and efficient and you have a thorough and methodic approach in dealing with and finding solutions for technical problems.
- You have a strong focus on customer satisfaction and you can demonstrate excellent communication skills.
- You are fluent in French with a good understanding of written English. A practical command of spoken English is definitely an asset.
- In this position you will operate out of your home office with extensive traveling, mainly in the northern parts of France.

OFFER

The company offers a unique and attractive long-term career opportunity in a professional and international work environment, working with a world class brand. You can look forward to a competitive compensation package with company car.
